

SHORT DESCRIPTION

Name

Legal Issues

Type

Conference

Overview

The aim of the event is to encourage the cooperation between the legal counsels of the central banks. Creating a platform for cooperation of the central banks' legal departments would provide a potential ground for generating better solutions to the challenging issues the central banks face. Given that the Club has already provided the member central banks with a powerful networking platform, it is best suited to organize such a conference within its framework.

We propose organizing annual conferences between the legal departments of the central banks within the framework of the Club with a purpose of information and experience sharing. Such meetings create a platform for generating effective solutions to legal issues, foster cooperation among the central banks and more generally contribute to ensuring the financial and economic stability in the region.

Participants

The conference is designed for experienced legal counsels having interest or hands-on experience with the issues raised.

Dates

14 - 16 October, 2015

Deadline

N/A

Language

English (with simultaneous translation)

Venue

Dilijan TC
